

## #Software Engineer - Microsoft Fabric

[Apply Now](#)

Company: Microsoft

Location: Herzliyya

Category: other-general

### Overview

Do you enjoy delivering value in a dynamic environment, and looking to make a big impact? Are you passionate about creating a service that will affect millions of business users every day?

The Microsoft Fabric team is building the new generation of big data + AI platform all the way from ingesting to visual insights like dashboards and reports, combined with the power of Microsoft Power BI in Azure and Office 365.

This job is an opportunity to work on a new and exciting service that Microsoft is betting on, be part of a vibrant team, and get proficient in the world of apps and services.

Microsoft Fabric and Power BI are among the fastest growing segments of the software industry today which hold fascinating technological challenges of creating fast and rich ways to analyze huge masses of data. Microsoft is a leading player in the BI market both in terms of market share as well as in thought leadership and BI is a key investment for Microsoft.
