

## Algorithm Engineer

[Apply Now](#)

Company: CPS JOBS

Location: Israel

Category: other-general

### תחום

A leading medical device company in Caesarea is looking for an Algorithm Engineer to join the software & algorithm group.

As an Algorithm engineer you will play a major role in developing the next generation Robotic Surgery platform using latest technologies, working in a very multi-disciplinary environment which offers endless learning and growth opportunities.

You will take ownership on various algorithm tasks including, but not limited to image processing, computer vision, kinematics, linear algebra, machine learning going through designing the solution through implementation, testing, validating, profiling and improvements to integration of algorithm into system while demonstrating its capabilities and performance.

### דרישות

- M.Sc. or PhD in computer science / SW Engineering from a well-known university or equivalent experience.
- Strong analytical / math background in image processing
- Strong programming skills and deep knowledge in C++ with proven experience
- 3+ years hands-on experience in scripting Python/MATLAB development
- Team player with excellent written and verbal communication skills as well as interpersonal skills.
- Track record of excellence and drive for results & problem solving

Nice to Haves

- Background in Medical Imaging and/or medical device companies – very strong advantage
- Experience in machine learning/deep learning – strong advantage
- Good Knowledge in GPU and CUDA programming with proven experience
