

C++ Team Lead

[Apply Now](#)

Company: Jobinfo

Location: Ramat Gan

Category: other-general

Job Description:

We are assembling a strong Quant Technology team to build our next generation of in-house analytics and trader support tools. This team will develop and maintain the in-house models and pricing libraries, providing firm wide live risk and Profit&Loss to support trading in Fixed Income, Commodities, Credit and FX derivatives. Our Tel Aviv office is based in Ramat Gan.

This is a unique opportunity to join one of the leading hedge funds in the world and enter the fast-growing world of FinTech, learning from the best in the field. We offer a fast-paced environment with excellent international growth opportunities and exposure to world-class financial technologies and global markets.

Responsibilities

Take part in the development and enhancement of the back-end distributed system, enabling continuous firm wide risk and Profit&Loss calculations

Work closely with Quants and Quant Developers globally to develop pricing and risk analytics for our in-house pricing library

Participate in the development of in house pre-trade analysis and market analysis tools for Portfolio Managers

Additional Positions:

, ,

Category:

Job Qualifications:

Substantial experience developing in C++ (Expert understanding of the C++11/ C++14/C++17 standards is a must)

Previous experience leading / managing a team
