

DBA For R&D Team

[Apply Now](#)

Company: CPS JOBS

Location: Israel

Category: other-general

תחום

A leading global SAAS solutions company is looking for a Database Administrator to join the R&D team to oversee the performance, security and integrity of our database.

דרישות

- Hand-on experience in database administration with MySQL (RDS), including monitoring, capacity planning, load balancing, performance tuning, high availability and multi-site disaster recovery deployment on complex database environments.
- Extensive knowledge with complex SQL programming and optimization
- Experience in database schema design including logical and physical database schemas design for large scale, highly available and mission-critical application systems
- Experience designing and supporting the database components of software applications, and understanding of entire application development life cycle
- Critical Skills: SQL/MySQL/AWS Amazon (RDS)
