What You'll Do

As a DevOps Student at Cisco Israel, you'll be at the forefront of developing core software technologies that will shape the infrastructure solutions of tomorrow. From crafting user-facing APIs to delving into high-level algorithms and firmware development, you'll be immersed in a world of innovation and challenge. Our team, Silicon One, is spearheading silicon development at Cisco, utilizing the latest technologies to build the largest and most complex devices on the edge of possibility. If you're eager to collaborate with exceptional individuals and contribute to the creation of world-class products, then this is the place for you!

Who You'll Work With

You'll be part of the Cisco Silicon One team - an amazing group driving Cisco game changing next generation network devices - Cisco Silicon One™. Our unique team works in a startup atmosphere inside a stable and leading corporate environment on the outside.

We are transforming the industry and building a new internet for the 5G era, providing a unified, programmable silicon architecture that is the foundation of all Cisco's future routing products.

Our design center is unique - hosting all silicon HW and SW development disciplines inside one site.

Our devices are designed to be universally adaptable across service providers and web-scale markets, designed for fixed and modular platforms. Our devices deliver high speed without sacrificing programmability, buffering, power efficiency, scale or feature flexibility.

Cisco Silicon One™ is a revolutionary, ground-breaking technology for our customers and end users for decades to come! The Internet now has a new faster, better, safer engine!
