

## DSP Engineer

[Apply Now](#)

Company: CPS JOBS

Location: Jerusalem

Category: other-general

### תחום

A leading global Commercial Electronics company in Jerusalem is looking for a DSP Engineer with proven experience in development of Audio DSP algorithms.

You will take part in design and developing of the sophisticated Audio products.

#### Responsibilities

- Design and Development of digital signal processing solutions that significantly impact the sound quality experience.
- Explore new technologies, prototype product concepts
- Working close with Audio Division product management through critical listening and simulations as well as electrical and acoustical measurements.
- Identify bottlenecks and bugs, and devise solutions to these problems

### דרישות

- MSEE in Audio DSP software development
- Design and development of Audio DSP algorithms and software for professional audio products.
- Experience in implementation of audio DSP in MATLAB, C/C++ and/or assembly.
- Deep understanding of digital audio theory including sample rates, sample and hold, anti-alias, and reconstruction filters.
- Expertise in the following Digital Signal Processing (DSP) principles: Filter Design, FIRs, IIRs, Dynamic Range Processing, EQs, Mixer, Feedback Suppression, etc.

A big advantage

- Experience Working with Analog Devices chips (Sharc, ADAU1467, ADAU1442).
- Experience working with SigmaStudio

איחוד שלי יוש
