Company: Vontier

Location: Israel

Category: other-general

JOB DESCRIPTION

Orpak, is a global market leader, delivering cloud-based solutions and value-added services to retail fuel stations and commercial fleets.

Our core goal is to respond to today's dynamic market by equipping our customers with the digital tools they need to remain competitive, future-proof their business, increase revenues and empower the consumer experience through omni-channel and Pay & Drive journeys.

Powered by IoT, secure cloud-based data storage, and supported by machine learning (ML), our solutions meet demands today and well into tomorrow.

We're looking for a passionate Embedded Team Leader to join our journey!

Develop new and sophisticated embedded products and platforms

Design and implement firmware in C language for real-time embedded products

Work on multiple environments of the firmware development

#LI-TV1

At least 2 years of Embedded Team Leader experience

5+ years hands-on experience in development, implementation and troubleshooting of software (C/C++) on embedded platforms.

Excellent communication skills and writing skills in both English and Hebrew.

BSc in Engineering, Electronics, Mathematics, Operational Research, Computer Science, or

any other highly quantitative field (or equivalent experience).

Deep familiarity with EMBEDDED LINUX, RTOS such as MQX and multi-threading Applications

Communication interfaces; Ethernet, SPI, I2C, UART, Ethernet, USB.

Experience working with Embedded Linux (user space development and debugging, Yocto, Buildroot, low-level drivers).

Experience with scripting and build script

Experience working with GIT

Invenco by GVR is a dynamic and innovative force in the world of technology-driven retail solutions. Born from the integration of various groups within the Gilbarco Veeder-Root network and the strategic acquisition of technology companies worldwide, our foundation is built on tech expertise. With a diverse set of industry leaders including Orpak, Invenco, Insite360 & GVR, we have formed a network of excellence. We are a global team located in over 20 countries and are proud of our diversity.
