**Are you an engineer who loves solving complex problems?**

**Are you a passionate engineer with high attention to details?**

**Join Guardicore (now Akamai Enterprise Security Group)**

Guardicore (now Akamai!) is changing how organizations protect their data centers and clouds from advanced threats. Our team boasts some of the field's most talented and experienced cybersecurity and data center experts.

**Join the Engineering Microsegmentation Devops Team!**

You will play a key role in optimizing our financial operations to ensure efficiency, transparency, and cost-effectiveness. This position requires an understanding of financial management principles, cloud services, and analytical skills.

In this role you will be:

Analyzing financial data related to cloud services usage, costs, and trends. Identifying areas for optimization and cost-saving opportunities and leveraging them.

Finding and deactivating any resources or services that are not being utilized to cut costs.

Collaborating with cross-functional teams to implement strategies for optimizing cloud costs without compromising performance or reliability.

Preparing and presenting reports on financial performance, cost savings initiatives, and other relevant metrics to stakeholders.

**Do what you love**

To be successful in this role you will:

2+ years of experience in financial analysis/cloud computing experience/sysadmin role / enrolled in a Bachelor's degree in computer sciences.

Experience with cloud computing platforms (e.g., AWS, Azure, Google Cloud) and understanding of cloud cost management principles.

Have analytical skills with the ability to interpret complex financial data and identify trends.

Have the ability to work effectively in a fast-paced environment and manage multiple priorities.
