

Haifa-Nazareth EPC Risk Manager

[Apply Now](#)

Company: Alstom

Location: Haifa

Category: other-general

Req ID:[[451634]]

At Alstom, we understand transport networks and what moves people. From high-speed trains, metros, monorails, and trams, to turnkey systems, services, infrastructure, signalling and digital mobility, we offer our diverse customers the broadest portfolio in the industry. Every day, more than 80 000 colleagues lead the way to greener and smarter mobility worldwide, connecting cities as we reduce carbon and replace cars.

Purpose of the Job

The Risk Manager is responsible for the activities related to Risk Management in the TMT Green Line Project organisation throughout the execution of the project.

The Risk Manager shall be responsible for the overall management, control, administration and supervision of all risk-related works, services, tasks, activities and actions required to be performed or implemented by or on behalf of the Project Company under and pursuant to the Project Agreement between the TMT Consortium and the Customer NTA.

Key Accountabilities and Authorities:

Co-ordinate and manage all Project Risk Management activities.

Interface with Partners, SPC and Customer on all matters related to Risk Management.

Ensure sound evaluation and management of Project contingencies and savings.

Ensure strict confidentiality between various levels of the company and project organizations at Alstom, EPC, SPC and Customer level.

Risk Management Policy and Procedures:

Implement an appropriate Project Risk Management Plan according to the Project Agreement requirements and to the Alstom processes throughout the execution of the project.

Ensure that Project members are trained at an appropriate level in the discipline of Risk.

Promote risk awareness in the Project team, and participating entities.

Risk Identification and Assessment:

Act as a support to Project Team for the identification and the assessment of risks, and the implementation and follow-up of mitigation actions.

Act as leader and facilitator on risk identification 'brainstorming' sessions, workshops and meetings.

Ensure that the risks of the Project are managed in an efficient and pro-active manner.

Propose risk owners within the Project for approval by the Project Manager.

Evaluate each identified risk in collaboration with the risk owners using the Project Risk Matrix and appropriate procedures.

Risk Mitigation and Monitoring:

Act as a support to risk owners for the definition, implementation and the follow-up of mitigation actions.

Monitor progress on risks and risk mitigation actions.

Ensure that the approved risk mitigation actions are integrated into the main Project schedule and budget, by linking with the project schedule and cost control team.

Ensure risks are maintained and up to date on the Customer's Risk Management Information System (RMIS) on a monthly basis

Risk Reporting:

Create and maintain consolidated Project Risk Registers for Alstom and EPC levels.

Produce regular Risk Assessment Reports, including Risk sections for the Project Monthly Progress Report.

Produce ad hoc Risk Reports as and when required as per the needs of the project.

Project Controls:

Support the project teams mainly the PMs to prepare gate reviews & follow up related action plans relating to Risks,

Opportunities, Savings and Contingency management

Ensure REX process within the project

Manage Internal & External risk management audits

Educational Requirements

Mandatory:

Advanced academic qualifications in Engineering / Business Management / Project Management / Construction Management

Fluent in English

Expeirance

Mandatory:

At least 10 years working experience in the field of construction management

At least 3 years working experience in risk management on infrastructure construction projects

Experience in the development, deployment and implementation of a Risk Management Information System for both

qualitative and quantitative risk analysis ARM, @Risk, Primavera or similar

Team player with the capacity to lead a group on risk activities and facilitate risk workshops and meetings for groups of all sizes

Ability to engage and influence a wide variety of Project / Program resources – including but not limited to, Engineers,

Project Controls Professionals, Project Managers, Client Leaders and External Stakeholders

Strong written and oral communication skills
