Company: Viaccess-Orca

Location: Israel

Category: other-general

Role Overview

We are seeking a dynamic and experienced **Head of SW Tech Lead** with a strong technical background and leadership skills. This role requires a hands-on tech lead with expertise in cloud technologies and a passion for all things IT. The ideal candidate will be a natural leader, passionate coach, and will play a pivotal role in driving our TV Division's mission forward.

Key Responsibilities

Technical Leadership

- Serve as a hands-on tech lead with deep expertise in cloud technologies.
- Have significant experience in automatic deployment & Infrastructure as Code, especially with K8/K3 deployment.
- Continuously learn and stay updated with emerging technologies, ranging from deployment to Generative AI and video streaming distribution.
- Exhibit natural leadership qualities without relying on hierarchical authority.
- Coach and mentor team members, fostering their growth and development.

TV Division Business Owner

- Act as the Business Owner (BO) of the TV division and be an active member of the TV division BO community.
- Lead by example, inspiring and motivating others through action.
- Engage with Lean Portfolio Management to provide strategic direction and investment funding

insights to maximize value creation.

- Align team priorities, assist with estimations, refine requirements, and suggest innovative solutions by combining technology and business insights.
- Ensure the realization of business objectives by addressing technical challenges and identifying technology risks early on.
- Champion continuous improvement and innovation, addressing and removing technological impediments.

Lead Product Owner (PO) Responsibilities

- Act as the counterpart to the Lead Product Manager of the TV Division, driving the Product Owner role for the entire TV Division.
- Collaborate closely with the Agile Release Train (ART) team to drive the TV division's objectives.
- Play a significant role in roadmap definition, providing technical insights, debt reduction strategies, and high-level estimations.
- Offer a technology execution perspective, guiding requirements and architecture to satisfy customers, roadmaps, and execution teams.
- Dive deep into current systems, from High-Level Design (HLD) to intricate details, challenging R&D teams and architects when necessary.
- Approve TV Division EPICS, ensuring they align with the vision and refining them as needed.
- Define and drive the system demo menu for the Program Increment Planning (PIP), promoting an end-to-end integration mindset and fostering a genuine DevOps culture within the TV division.

Qualifications:

- Bachelor's degree in Computer Science, Engineering, or a related field.
- Minimum of 5 years of experience as a manager/Tech lead.
- Extensive experience with cloud technologies.
- Significant experience in automatic deployment & Infrastructure as Code, especially with K8/K3 deployment
- Proven experience in leadership roles, preferably in software engineering.
- Strong communication and interpersonal skills.
- Passion for technology and continuous learning.
