

## IT Lab Administrator (On site)

[Apply Now](#)

Company: IT

Location: Jerusalem

Category: other-general

### The position

Mobileye's IT Lab Administrator provides advanced Linux, scripting, storage, network and Windows computing services support to the company's Laboratories in Jerusalem

### What will your job look like?

Supporting Mobileye lab owners with software, permissions, and hardware issues

Analyzing, troubleshooting, and resolving issues in system hardware, software, and networking

Assisting Networking, Storage, Systems and Information security teams with troubleshooting

Creating new tools as needed for better workflows, monitoring, and time-saving on going scripts.

Installing, configuring and maintaining desktop and laptop PCs and peripherals

Assist with other duties and special projects, as directed by Manager

Preparing purchase requests for necessary HW & SW

On-site arrival and support on Sunday to Thursday

### All you need is:

3 years of hands on experience with Linux

Familiar with Ansible, Docker, Zabix

Proven scripting and automation experience, Python, Bash, Powershell

IT general knowledge in AD, GPO, permissions, networking, storage systems

Hardware experience (servers, PCs, Switches)

Good people and communication skills

Assertive, persistent, curious, customer support experience

Ability to diagnose and resolve complex technical issues

Proficiency in English

Mobileye changes the way we drive, from preventing accidents to semi and fully autonomous vehicles. If you are an excellent, bright, hands-on person with a passion to make a difference come to lead the revolution!
