

## Junior QA Automation Engineer

[Apply Now](#)

Company: Tipalti

Location: Israel

Category: other-general

Tipalti is looking for a Junior QA automation engineer to take part in the development and execution of the test automation for its global payment's automation platform.

### Why join Tipalti?

Tipalti is one of the world's fastest-growing fintech companies. We free finance professionals to lead by modernizing the entire payables operation. We are a well-funded, late-stage start-up backed by high-profile investors. Our 2021 Series F funding round raised \$270 million, valuing us at over \$8.3 billion. With total funding of just over \$550 million, and with more than 3000 global customers, Tipalti is one of the most valuable private fintech companies in the world.

At Tipalti, we pride ourselves on our collaborative culture, the quality of our product and the capabilities of our people. Tipaltians are passionate about the work they do, and keen to get the job done. Tipalti offers competitive benefits, a flexible workplace, career coaching, and an environment where diverse individuals can thrive and make an impact. Our culture ensures everyone checks their egos at the door and stands ready to reach for success together.

### In this role, you will be responsible for:

Designing, developing, and implementing automated testing processes for software applications.

Collaborating with cross-functional teams to understand software requirements and create effective testing strategies.

Building and maintaining automated test scripts to ensure the reliability and performance of software systems.

Identifying and troubleshooting issues in the automation framework and proposing solutions

for improvement.

## **About you**

**1-2 years' experience as QA engineer (Web-oriented), at least one year as QA**

**Automation-must.**

Javascript/Java knowledge -an advantage

Experience with planning and writing test documentation ( STP,STD)- must

Experience writing e2e automated tests, preferably using WDIO or PLAYWRITE framework.

Experience with API testing( SOAP,REST)

Experience with DB testing( SQL ,Mongo)

Good understanding of web development basics.

Self-motivated, detail-oriented and organized.

Excellent problem solving and troubleshooting and technical skills.

Good oral and written communication skills in English.

Our tech teams are the engine behind our business. Tipalti's tech ecosystem is extremely rich and we continually add new features to our products, ensuring that we respond to our clients' needs at scale. Our tech teams retain a fast-paced, start-up vibe that encourages innovation and critical thinking. At Tipalti, you'll have the opportunity to work with a diverse, global team of engineers, developers and product leaders who are collectively building the future of our best-in-class product suite as we transform financial operations for the future.

## **Interested in learning more about us?**

Tipalti is the only company handling both global partner payments and accounts payable workflows for high-velocity companies across the entire financial operations cycle: onboarding and managing global suppliers, instituting procurement controls, streamlining invoice processing and approvals, executing payments around the world, and reconciling payables data across a multi-subsidiary finance organization. Tipalti enables companies to scale quickly by making payables strategic with operational, compliance, and financial controls. Through Tipalti, our clients can efficiently and securely pay thousands of partners and suppliers in 196 countries within minutes.

Tipalti is fueled by a commitment to our customers and a desire to build lasting connections. Our client portfolio includes high-velocity businesses such as Amazon Twitch, GoDaddy, Roku, WordPress.com, and ZipRecruiter. We work hard for our 98% customer retention rate which is built on trust, reliability and innovation. Tipalti means we handled it -

a mission to which we are constantly committed.
