

Machine Learning Engineer

[Apply Now](#)

Company: LSports

Location: Ramat Gan

Category: other-general

LSports is a global leader in sports data, committed to revolutionizing the industry with innovative solutions.

Our focus is on sports data collection and analysis, advanced data management, and cutting-edge services such as AI-powered sports tips and high-quality sports visualization. As the sports data landscape grows, we remain at the forefront, delivering real-time solutions.

If you're passionate about both sports and technology and want to drive the sports-tech and data industries into the future, we invite you to join our team.

At LSports, we place a lot of emphasis on Data Integrity, which is a cornerstone of our long-term strategy.

Data Integrity group is at the forefront of real-time analytics, using machine learning and artificial intelligence to balance low latency and impeccable data accuracy.

Responsibilities

Lead the design and implementation of advanced machine learning algorithms to solve complex problems in various domains.

Collaborate closely with data scientists and domain experts to operationalize machine learning models into production.

Mentor junior engineers and provide technical guidance in machine learning best practices.

Conduct research to keep abreast of the latest advancements in machine learning

and artificial intelligence.

Evaluate the effectiveness of machine learning models through comprehensive validation metrics and make iterative improvements.

****It is possible to work from the offices in Ramat Gan and Ashkelon****

Minimum of 5 years of experience in machine learning or data science, with a proven track record of deploying machine learning models into production.

Proficiency in Python and machine learning frameworks like TensorFlow, PyTorch, or scikit-learn.

Strong understanding of algorithms, data structures, and statistical modeling techniques.

Advanced degree in Computer Science, Data Science, Statistics, or a related field.

Demonstrated leadership skills and experience in mentoring or managing teams is an advantage.

Proven experience in MLOps - an advantage
