

## Mobile Lead Tel Aviv

[Apply Now](#)

Company: WalkMe

Location: Tel Aviv-Yafo

Category: other-general

### About the position

WalkMe (NASDAQ: WKME) is growing and we want you to join us!

At WalkMe, we're not just the leader in digital adoption, we started the digital adoption revolution - enabling organizations to measure, drive, and act to ultimately maximize the impact of their digital transformation and accelerate the return on their software investment. And with over 2,000 clients, including more than a third of Fortune 500 companies, working with us daily, we're changing how enterprises interact with their technology.

WalkMe is looking for a **Mobile Team's Tech Lead** who is passionate about web and product, eager to solve complex problems and dreams of working with the BEST team. You will join us in the journey of building an amazing product in the online user experience realm, and as a team member, your contribution will go beyond coding, as you will have a direct impact on the way we steer this ship on its crazy journey.

As part of the Workstation unit, you will be a part of the engineering group who are in charge of one of WalkMe's most progressive products. The team is performing E2E design, planning, development and unit testing of the Workstation Mobile product.

We are looking for people who are passionate about leading technology to the extreme. If you are passionate about developing an innovative product, making an impact, and strive to work

with the industry's brightest talent as part of one of the fastest-growing and successful startups around – WalkMe is where you want to be!

### **What will you actually be doing?**

Be a tech lead of the Mobile Product, including a supervision of both iOS and Android software engineers

Participating in challenging desktop product development, using the industry's latest trends

Working with WalkMe's leading dev team to develop WalkMe's core product

End-to-end development using cutting edge technologies

Contributing to product used daily by millions of users

Be part of an organic team developing premium level products

Investigating, implementing, and sharing new technologies and ideas

### **What should you bring to the table?**

Leading experience of 2 years

At least five years of proven experience in native Android app development

Experience using GIT

Proficiency in both Java and Kotlin (including coroutines)

Experience with:

Jetpack architectural components

RxAndroid

Rest client

Custom views development

Gradle scripts

Play Store deployment

Firebase services

Knowledge in Web View is a plus

Knowledge in iOS is a plus

Good English speaking level

Excellent interpersonal skills

Ability to work independently

### **Why WalkMe?**

As one of the world's leading SaaS companies, WalkMe enables you to partner with some of the most creative, innovative, and dedicated people in the business. And when we're not hard at work powering digital adoption, you'll find us relaxing with a cup of coffee.

So why should you work for WalkMe? For starters:

- We're ranked by Dun & Bradstreet as one of the TOP 20 software companies to work for in Israel
- We were recognized by Deloitte as the 6th fastest growing software company in the world
- We're publicly traded on the Nasdaq stock exchange
- We provide you with the latest cutting edge tech to power your work while developing and advancing your career
- We manage at eye-level, giving you the chance to work with anyone at the company. Want to pitch an idea to one of WalkMe's founders or work on a project with our CEO? You've come to the right place
- We recognize that you have a life outside the office. Whether it's picking up the kids or taking some time off for yourself, we make sure you keep your work-life balance.

And that's just the beginning! We could go on and on, but it would probably be easier to just apply and find out more.
