

OCS Maintenance & Training Expert - Electrification Project - Tel Aviv (f/m/d)

[Apply Now](#)

Company: DB Engineering & Consulting GmbH

Location: Israel

Category: other-general

Job description

For this Electrification Project - Tel Aviv we are seeking an OCS Maintenance & Training Expert. Deutsche Bahn's expertise is in high demand all around the world. As a leading engineering and consulting company in the rail sector, DB Engineering & Consulting offers that knowledge – starting with an idea and continuing all the way to operations. We advise our customers in Germany and around the globe, develop technically sophisticated and customized infrastructure, mobility and transport solutions. With sustainable concepts, we ensure the future success of economic regions, make important contributions to the protection of the environment and help shape the world of the future. Since 1966, DB Engineering & Consulting has implemented thousands of projects of any size and complexity in over 100 countries. About 5,000 employees from 84 nations are currently realizing the projects of our customers with professional knowledge and intercultural experience. **Responsibilities:**

Provide methodical lead & expertise concerning applicable concepts, strategies and schedules for OCS maintenance.

Provide technical, practical, and organizational expertise concerning execution of OCS maintenance on site and in the office.

Accompany and support the client in setting up and training of the maintenance team(s) for OCS.

Accompany and support client's OCS Maintenance Team in its daily activities on site and in

the office.

Review of technical documents from maintainers and contractors as well as follow-up on their maintenance activities.

Have further general know-how transfer regarding maintenance of overhead contact system, general functioning of the system and its elements.

Be responsible for the coordination between the DB E&C pool of further experts and clients' representatives.

Qualifications:

Degree in Engineering (or equivalent expertise) and knowledge of railway overhead contact line system

Experience in working with overhead contact line system, preferably as lineman, maintenance or construction manager

Methodical & practical approach on tasks to be done on site and in the office

Ability to lead, train & advise maintenance teams in an international environment , with focus on hands-on approach

Fluency in English, other language(s) might be an advantage, especially Hebrew and / or German

Driving licence and readiness to work in both office and on site and willing to work in night shifts
