Company: Networx

Location: Jerusalem

Category: other-general

Who are we, and what are we looking for?

At Networx, we believe in empowering great people to do exceptional work! With over 20 years of experience and expertise in the home improvement industry, we've proudly served over 10 million homeowners and supported thousands of contractors in growing their businesses. Our core values - Evolve, Do the Right Thing, Chop Wood Carry Water, and Celebrate Success - are more than words; they're guiding principles that shape our actions and inspire us to exceed our expectations.

Whether you're in Jerusalem, Tel A Viv, or our US-based office you will find a vibrant culture of fun, collaboration, and innovation! We foster an environment where everyone has the opportunity to thrive as we work towards our mission to Win Contractors More Jobs. Join us at Networx and be part of a dynamic team where your contributions are valued, your ideas are encouraged, and your growth is supported!

Summary

At Networx, we embrace evolution, and that journey extends to our product! We are seeking a highly skilled Product Manager to work cross-functionally, bring new ideas, and manage the processes of transforming and maintaining our product. This role is tailor-made for a Product Manager with a proven track record in analytics and product launches, ready to shape and execute a product strategy. We're seeking someone with a deep understanding of the product life cycle, UI/UX, and experience incorporating agile methodologies. Ideal candidates will excel in defining user experiences that scale effectively, leveraging insights and innovation, and will join a team where you'll have the

tools and support to bring projects to a successful close. If you're driven by the prospect of making a significant impact and thriving in fast-paced environments, we invite you to apply to join the Networx Product team!

Responsibilities:

Manage product requirements and guide product development through agile methodologies, including user story creation

Collaborate with appropriate stakeholders and R&D teams to establish clear requirements and ensure top-notch product delivery

Utilize analytics, market research, usability studies, and competitive analysis to inform decision-making processes

Develop and prioritize a comprehensive product roadmap focused on innovation, technical debt reduction, and ongoing maintenance and support

Use Project Management skills to prioritize, organize, and bring multiple projects to a successful completion

Requirements

3 years of experience in Product Management or a similar position within a product team

Communicate verbally and in writing fluently in US English

Experience working with agile development teams

Experience launching successful products

Highly analytical

Full understanding of UI/UX

Project management skills

You must be available to reliably commute to work in our Jerusalem office 3 days a week

Good home office working environment including a quiet space and high-speed internet

Benefits

Why Networx

Work with an international company & team

Great career development and growth opportunities in a fast-growing company

Holiday and Parental Leave

Hybrid work model

Family events and fun in-office activities
