R&D Manager

About The Role

We are looking for a leader in soul R&D Group Manager to lead a group of full-stack teams (including outsourcing) building large-scale user-facing products. In this role, you will lead in building a suite of products based on regulation, data, and rich user experience. You will define the teams' structure, establish new teams, promote existing members, and recruit new ones. Aside from staffing, you will be responsible for the group's high standards and processes, take part in selecting the best core technologies, and connect the different teams to a complete alignment within and with teams from other R&D divisions.

If you are someone who thrives outside your comfort zone, loves leading technology and people, and is obsessed with running fast and delivering high-quality customer-facing solutions, join us!

Responsibilities:

Manage and build a group of full-stack engineers developing customer-facing products.

Provide technical supervision and support for ongoing projects and the development of products, including guidance, product investigations, problem-solving, and implementation of solutions.

Play a central role as a senior manager in building the R&D organization.

Direct reporting to the VP of R&D

Requirements

Required Experience and Skills:

10+ years experience in R&D roles, 5-6 years as an R&D TL or Group Manager of sized teams

Willingness and patience to mentor and share your wisdom & experience and be open to learning from others.

3+ years experience in frontend development with the following frameworkstools:

JavaScript (OOP and functional programming paradigm, working with scopes, events, and DOM)

ES67

TypeScript

VueJS/React

Angular

Node, Webpack, babel, gulp

3+ years experience in backend development (#C, ASP.NET) – Must,

3+ years experience with Databases (MSSQL, PG, MongoDB, MariaDBMySQL)

Significant experience working with CMS (WP) – Must, Commerce – Advantage.

Significant experience working on B2C and B2B-facing solutions.

Experience with cloud environments – Advantage

Proven experience in building complex software solutions.

Excellent written and verbal communication skills in both English and Hebrew

A proactive, out-of-the-box thinking
