Company: Akamai

Location: Israel

Category: other-general

Do you enjoy cyber security and enabling Data Research to protect millions of people online?

Are you excited about working with cutting-edge data research systems?

Join our Data Research team!

Our Data Research team applies machine learning, including LLMs, to Akamai security products. We not only leverage the massive amount of Akamai network traffic data to provide top-tier threat intelligence for customers but also apply ML/AI on security products directly as value differentiators.

Help us make the Internet a safer place

You'll identify attacks/threats from network data and collaborate with the researchers to enhance the models they develop. You will help us protect millions of people each day.

As a Security Analyst, you will be responsible for:

Having a great understanding of the Akamai security products.

Working closely with a data research team as a subject domain expert, assisting with data annotation and machine learning model development & analysis.

Assisting in domain-based feature development for ML/AI model building to solve complex security use cases.

Leveraging your deep understanding of the Akamai security products and data to enhance the ML/AI products and make them even better.

Do what you love

To be successful in this role you will:

Have a B.Sc. in computer science or a relevant field or relevant military experience.

Have 2+ years of experience in cyber security incident response or SOC analysis.

Have a good understanding of networking and Operating Systems concepts.

Have knowledge/experience and understanding of data analysis methodologies and best practices.

Have programming skills in SQL and Python.

Be fluent in written and spoken English.

Work in a way that works for you

FlexBase, Akamai's Global Flexible Working Program, is based on the principles that are helping us create the best workplace in the world. When our colleagues said that flexible working was important to them, we listened. We also know flexible working is important to many of the incredible people considering joining Akamai. FlexBase, gives 95% of employees the choice to work from their home, their office, or both (in the country advertised). This permanent workplace flexibility program is consistent and fair globally, to help us find incredible talent, virtually anywhere. We are happy to discuss working options for this role and encourage you to speak with your recruiter in more detail when you apply.
