

Senior backend developer-C#

[Apply Now](#)

Company: Jobinfo

Location: Ramat Gan

Category: other-general

Job Description:

The team is developing and maintaining Cloud Guard Risk Management, Posture, and Inventory engines that provide organizations with the tools they need to create their secure cloud environments on the leading cloud providers (AWS, Azure, GCP).

We run our product on AWS using various services and technologies, built on Microservices architecture:

ECS, Docker, Lambda, DynamoDB, MongoDB, OpenSearch, and many more!

Your Impact & Responsibilities

End-to-end development of backend services, starting from research and design all the way to deployment and monitoring.

Work with our Product managers and Frontend developers to build the best features.

Collaborating with other team members, sharing your knowledge and help improving the team.

Bring innovative ideas to improve the robustness and performance of our services

Additional Positions:

Category:**Job Qualifications:**

7+ years of experience with Backend Development in .Net technologies

B.Sc. in Computer Science/Software Engineering

Experience with large-scale and complex products

Ability to troubleshoot and solve complex problems

Experience with AWS or other Cloud technologies

Familiarity with NoSQL and Microservices architecture

Team player!

Strong background in Networking and Security - a plus

Company Occupation:

Data security, High Tech, Software

Company Size:

500+
