

**Senior Code Module (Java) Engineer: Discover the inner workings of Java!**

[Apply Now](#)

Company: Dynatrace

Location: Tel Aviv-Yafo

Category: other-general

## Job Description

Our **Java Agent** is a core part of the Dynatrace Platform for automatic instrumentation of Java applications. Dynatrace OneAgent collects all relevant metrics (including hardware, operating system, and application processes) along 100% of the customers' application-delivery chain. **Over 5 million** Java Agents are already deployed today, monitoring critical customer applications and platforms.

Your job as an Agent developer is implementing changes, improvements, and new features for our Java Agent.

If you are passionate about development **high performance** and **understanding how things work at a low level**, this is your chance for an exciting challenge in a fantastic team.

## Your role

Development of performance and availability monitoring solutions **(Java)**

Working **primarily with Java and some C++**

Analyzing and gaining **an understanding of the inner workings of common frameworks** through debugging, interrogation etc.

**Gazing beyond common frameworks with a deep understanding of Java**

Independent design and implementation of new features (Feature Ownership)

Intensive cooperation with **local and international development teams**

## Qualifications

Several years of experience as Senior Software Engineer **Java (priority)** and **C++ experience (nice-to-have)**

Sound knowledge of Java including core packages, third-party libraries (Spring, Kafka, Apache etc.) and App servers (Tomcat)

Understanding how the Java Virtual Machine works

**Enjoy developing high-performant algorithms** and working with latest technologies

The ability to focus on details but keep the mind open for the whole ecosystem

**Team player** and eager to learn innovative technologies

## Additional Information

### What's in it for you?

A **one-product software company** creating real value for the largest enterprises and millions of end customers globally, striving for **a world where software works perfectly.**

Working with the **latest technologies** and at the forefront of innovation in tech on scale; but also, in other areas like marketing, design, or research.

A team that thinks outside the box, welcomes unconventional ideas, **pushes boundaries**

An environment that fosters innovation, enables creative collaboration, **allows you to grow.**

A globally unique and **tailor-made career development program** recognizing your potential, promoting your strengths, and supporting you in achieving your career goals.

A **truly international mindset** with Dynatracers from different countries & cultures all over the world, and **English as the corporate language** that connects us all

A culture that is being shaped by the diverse personalities, expertise, and backgrounds of our global team.

## Compensation and rewards

We offer attractive compensation packages and stock purchase options **with numerous benefits and advantages.**
