

Senior Developer Relations Evangelist - (Tel Aviv, Israel)

[Apply Now](#)

Company: Couchbase

Location: Tel Aviv-Yafo

Category: other-general

Every day we tackle new and exciting challenges to empower developers to build modern cloud, mobile, and edge applications that deliver a premium user experience. Couchbase delivers unmatched performance, scalability, flexibility and financial value across cloud, on premises, hybrid, mobile and edge deployments. The database market is undergoing a generational shift and is one of the largest market opportunities in enterprise software due to big trends like the need for digital transformation, acceleration to the cloud and innovation at the edge. Join Couchbase to be a part of a greater change. Here you'll have the opportunity to learn and grow with some of the most innovative, passionate and humble individuals in the database industry.

Developer Evangelist

Location: Israel (to support TIMEA region) - this role is office-based 3 days/week in Tel Aviv.

Couchbase is looking for a talented and passionate senior-level Developer Relations (DevRel) Engineer to join the Developer Relations (DevRel) team in the TIMEA Region (Turkey, Israel, Middle East, and Africa). As a Developer Evangelist, you will play a crucial role in promoting Couchbase's cutting-edge technologies, building strong relationships with developers and technical communities, and driving the adoption of our platform. Responsibilities:

Developer Advocacy: Serve as the primary technical evangelist for Couchbase in the TIMEA Region, promoting our products and solutions to developers, software engineers, and technical decision-makers.

Community Engagement: Actively engage with developer communities, both online and

offline, by organizing and participating in meetups, hackathons, conferences, and other events. Establish a strong presence and foster relationships with influencers, user groups, and relevant organizations.

Technical Content Creation: Create compelling technical content, including blog posts, tutorials, code samples, and videos, to educate developers and showcase the capabilities and benefits of Couchbase's products and solutions.

Technical Presentations: Deliver engaging presentations and demonstrations at conferences, meetups, and customer events. Articulate Couchbase's value proposition, technical features, and use cases to a diverse range of technical audiences.

Developer Support: Provide technical guidance and support to developers, answering questions, addressing concerns, and assisting with troubleshooting. Act as a bridge between developers and Couchbase's engineering and product teams.

Feedback and Insights: Gather feedback from developers, users, and the community to identify trends, challenges, and opportunities. Share insights internally to influence product development and roadmap decisions.

Collaboration: Collaborate closely with the regional sales team, product management, and engineering teams to align developer initiatives with overall business goals and objectives.

Industry Awareness: Stay up to date with industry trends, competitor activities, and emerging technologies. Share relevant insights and knowledge with internal stakeholders to drive innovation and maintain a competitive edge.

Requirements:

Language Proficiency: Fluent in English and Hebrew with excellent written and verbal communication skills in both languages.

Technical Expertise: Strong technical background in software development, database technologies, and cloud platforms. Familiarity with NoSQL databases and related technologies is a plus.

Developer Community Experience: Previous experience engaging with developer communities, organizing events, and building relationships with developers and technical influencers.

Presentation Skills: Ability to deliver impactful technical presentations and demonstrations to large and diverse audiences.

Communication Skills: Excellent interpersonal and communication skills, with the ability to explain complex technical concepts to both technical and non-technical audiences.

Passion for Technology: Genuine passion for technology and a deep interest in staying updated with the latest industry trends and advancements.

Self-Motivated: Proactive and self-driven, with the ability to work independently and as part of a team in a fast-paced and dynamic environment.

Flexibility: Willingness to travel within the TIMEA Region for events and customer visits as required.

Bachelor's degree in Computer Science or a related technical field is preferred.

Joining Couchbase as a Developer Evangelist offers an exciting opportunity to contribute to the growth of a leading-edge technology company while working with a diverse and talented team. If you are a passionate technologist, love engaging with developers, and want to make an impact in the TIMEA Region, we would love to hear from you. **Why Couchbase?** Modern customer experiences need a flexible cloud database platform that can power applications spanning from cloud to edge and everything in between. Couchbase's mission is to simplify how developers and architects develop, deploy and consume modern applications wherever they are.
