

Senior Embedded Engineer

[Apply Now](#)

Company: Software

Location: Jerusalem

Category: other-general

The position

Mobileye's Platform Group in Jerusalem is looking for an embedded SW developer who will be responsible for developing embedded SW products - Low-level drivers, Bring-ups, etc. This is an exciting opportunity to work with highly talented engineers and be a part of product innovation on cutting-edge technologies. We are looking for a RT embedded Software Engineer to join the development of the next phase and cutting-edge Software group. You will be part of a winning team in a fast-paced startup-like environment, working on many different components of the entire system.

What will your job look like?

Develop the software infrastructure for existing and new generation EyeQ chips.

Develop multi-threaded, multi-core system under a custom real-time operating system as well as embedded Linux.

Develop and debug of CI test content for infrastructure modules.

Performance optimizations and tuning.

All you need is:

BSc in Computer Science, Software Engineering or Electrical Engineering

At least 5 years of experience in Embedded SW Development

Fluent in C++ programming

Deep understanding of embedded systems

Experience with Real-Time OS and driver development – An advantage

Experience in HW/SW integration and debugging activities on real HW - An advantage.

Mobileye changes the way we drive, from preventing accidents to semi and fully autonomous vehicles. If you are an excellent, bright, hands-on person with a passion to make a difference come to lead the revolution!
