

Senior Embedded Engineer

[Apply Now](#)

Company: Software

Location: Ramat Gan

Category: other-general

The position

Mobileye's Platform Group in Ramat Gan is looking for an embedded SW developer who will be responsible for developing embedded (High and Low Level of Development) SW products. This is an exciting opportunity to work with highly talented engineers and be a part of product innovation on cutting-edge technologies. We are looking for a RT embedded Software Engineer to join the development of the next phase and cutting-edge Software group. You will be part of a winning team in a fast-paced startup-like environment, working on many different components of the entire system.

What will your job look like?

Develop the software infrastructure for existing and new generation EyeQ chips.

Develop multi-threaded, multi-core system under a custom real-time operating system as well as embedded Linux.

Develop and debug of CI test content for infrastructure modules.

Performance optimizations and tuning.

All you need is:

At least 5 years of experience in Embedded SW Development

Fluent in C++ programming

Deep understanding of embedded systems

Familiar with configuration management tools preferably GIT

Experience with Real-Time OS and driver development – An advantage

Experience in HW/SW integration and debugging activities on real HW - An advantage.

Mobileye changes the way we drive, from preventing accidents to semi and fully autonomous vehicles. If you are an excellent, bright, hands-on person with a passion to make a difference come to lead the revolution!
