

Senior Firmware Engineer

[Apply Now](#)

Company: NVIDIA

Location: Ra'anana

Category: other-general

NVIDIA is looking for an excellent **Senior Firmware Engineer** to join the InfiniBand Switch and NVLink FW group. As a Senior Engineer you will be taking part in designing, implementing and leading major development firmware features, delivering the next-generation networking products. The Firmware team develops cutting-edge networking features for cloud, HPC and storage. We drive the data growth of the world's biggest companies. With talented engineers around the globe, the work environment is dynamic, meaningful, and fast-paced. Are you ready for the challenge?

What you will be doing:

- Collaborate with architecture and different software design teams as part of the software development lifecycle.

- Design and implement new features in the core of NVIDIA Switch firmware.

- Work in pre and post-silicon development environments of next-generation NVIDIA networking products.

- Gain a deep understanding of system debugging, networking technology, and stacks, as well as the HW/FW/SW relationship.

- Innovate! Bring NVIDIA's FW switching products to shine in customer's view.

What we need to see:

- B.Sc. in Computer Science/ Computer Engineering / Electrical Engineering or

equivalent experience.

8+ years of relevant professional experience.

Proficient knowledge of C.

Strong programming skills in Python.

Excellent understanding of embedded SW and real-time programming.

Strong analytical, creative, debugging and problem-solving skills.

Detail-oriented and comfortable with multitasking in a dynamic environment with shifting priorities and changing requirements.

An excellent teammate with good social skills.

Ways to stand out from the crowd:

Knowledge of network protocols.

Agile experience.

Motivation to learn and constantly improve processes and tools.

Background in Linux internals.

Scripting abilities (Python, Bash).

NVIDIA is widely considered to be one of the technology world's most desirable employers. We have some of the most forward-thinking and hardworking people on the planet working for us. If you're creative and autonomous, we want to hear from you! NVIDIA is committed to fostering a diverse work environment and is proud to be an equal-opportunity employer. As we highly value diversity in our current and future employees, we do not discriminate (including in our hiring and promotion practices) on the basis of race, religion, color, national origin, gender, gender expression, sexual orientation, age, marital status, veteran status, disability status or any other characteristic protected by law.

In 2020, NVIDIA acquired Mellanox, a leading supplier of end-to-end Ethernet and InfiniBand intelligent interconnect solutions and services for servers, storage, and hyper-converged infrastructure. Mellanox intelligent interconnect solutions increase data center

efficiency by providing the highest throughput and lowest latency, delivering data faster to applications and unlocking system performance.
