

Senior Firmware Engineer

[Apply Now](#)

Company: NVIDIA

Location: Yokne'am Illit

Category: other-general

We are looking for a talented Experienced Firmware Engineer to join our Network adapter Firmware team. The Firmware team develops cutting edge networking features for cloud, HPC and storage. We drive the data growth of the world's biggest companies. With talented engineers around the globe, the work environment is dynamic, meaningful and fast paced.

What you will be doing:

Work closely with the architecture and different software design teams.

Implement new features in the core of NVIDIA NIC firmware.

Implement verifiers for advanced features in our advanced random Firmware testing environment.

Gain a deep understanding of system debug, networking technology and stacks, as well as the HW/FW/SW relationship.

You will learn how a big software project is operated, maintained, qualified and released, and how Hardware and Firmware are developed.

What we need to see:

B.Sc. in Computer Science/Engineering or equivalent experience.

5+ years of development experience, AND/OR

2+ years of team lead experience.

Strong C/C++ capabilities.

Excellent understanding of data structures and algorithms fundamentals.

Scripting abilities (Python, Bash).

Strong analytical, debugging and problem solving skills.

Motivated and independent with strong interpersonal skills.

Ways to stand out from the crowd:

Knowledge of network protocols.

Prior verification experience.

Real time programming.

Knowledge in storage protocols.

Experience with Agile methods.

NVIDIA is widely considered to be one of the technology world's most desirable employers. We have some of the most forward-thinking and hardworking people on the planet working for us. If you're creative and autonomous, we want to hear from you! In 2020, NVIDIA acquired Mellanox, a leading supplier of end-to-end Ethernet and InfiniBand intelligent interconnect solutions and services for servers, storage, and hyper-converged infrastructure. Mellanox intelligent interconnect solutions increase data center efficiency by providing the highest throughput and lowest latency, delivering data faster to applications and unlocking system performance.

NVIDIA is committed to fostering a diverse work environment and proud to be an equal opportunity employer. As we highly value diversity in our current and future employees, we do not discriminate (including in our hiring and promotion practices) on the basis of race, religion, color, national origin, gender, gender expression, sexual orientation, age, marital status, veteran status, disability status or any other characteristic protected by law.
