

Senior Full Stack Engineer Tel Aviv

[Apply Now](#)

Company: WalkMe

Location: Tel Aviv-Yafo

Category: other-general

About the position

The Experience unit at WalkMe is looking for a senior full-stack engineer.

WalkMe Workstation is the DAP gateway for hundreds of thousands of employees around the globe - this is where work starts.

As part of the Experience Unit, you will be in charge of E2E applications research and development, from the building content process to the end user experience. Our tech stack includes: React, NodeJs, NestJs, Postgres.

We are looking for doers, no-ego, and 'getting-things-done' kind of people whose efficient and effective workflows make them vibrate. If you are passionate about developing an innovative product, making an impact, and strive to work with the industry's brightest talents as part of one of the fastest growing and successful startups around – WalkMe is where you want to be!

What will you actually be doing?

A technical focal point for software development best practices and design of main components, services and systems.

Design, plan, and execute end-to-end features, leveraging cutting edge methods and technologies.

Review and optimize co-worker codesBe part of an organic team developing in a fast

paced environment.

Develop features and code that will be used daily by millions of people.

Write TDD and clean code.

What should you bring to the table?

Eager to learn and outstanding definition of “done”.

Problem-solver mind set and “can do” attitude.

At least 5 years of server side development with Node.js.

At least 5 years of experience with React.

Excellent English - written and verbal.

What we'd LOVE for you to bring to the table:

Experience with ML and NLP

Experience with GraphQL and NestJS.

Experience with SASS, and CSS within SPA

Experience with BI analyzing and real-time analytics databases.

Creativity, happiness and good vibes.
