Job Description:

So, tell me about you.?

Absolutely! Our company is a growing cyber security startup that makes Microsegmentation the easiest and most effective way to protect any organization from its next breach. By leveraging automation and self-service adaptive multi-factor authentication, we have brought to market a solution that provides autonomous, airtight network access security at scale.?

?

Okay but why your company??

Excellent question. The short answer is because we are the best at what we do.??

?

The company recently received Series A funding from a leading VC and has won multiple awards and mentions including Gartner Cool Vendor, being part of the Big50 Startup Report 2021, the 2021 Fortress Cyber Security Award, and for the second year in a row has received the 'Editor's Choice' award from InfoSec.?

?

Our R&D is based in Tel Aviv and we just established our North American HQ team.

It is a really exciting time to join the company's team!?

?

Sounds interesting. And the job itself?

As Frontend Engineer you will have the opportunity to work with exceptional talent and

significantly impact the organization's growth while building one of the most innovative and promising new startups in network security.??
