Company: RAD

Location: Tel Aviv-Yafo

Category: other-general

### Senior Linux Kernel Engineer

For a significant leading role in our SW group, we're looking for a senior SW engineer with specific experience in boards bring up and ARM processor.

The position enables you to express your creativity and your personal abilities to overcome the challenges of developing future products.

The role includes team work, working closely with HW engineers and participating in the design of the products, managing a DESIGN project, and participating in determining the architecture of our new products.

Success in the job depends on a team work capability, professionalism, excellent interpersonal skills, desire to learn, creativity and broad thinking.

### Requirements

- At least 6 years of SW development experience
- Experience with Linux kernel - a must
- Capable of building a Linux system using Buildroot/Yocto or other
- Experience with CC++ - a must
- Experience with networking - a significant advantage

### Location

The position can be based from our Tel Aviv or Beer Sheva office, and is hybrid with up to two days/week remote.
