

## Senior Security Architect - Remote

[Apply Now](#)

Company: Akamai

Location: Israel

Category: other-general

**Are you up to the task of architecting a cutting-edge Threat & Vulnerability Management function?**

**Are you a motivated security architect with experience in large enterprise environments?**

**Join our Information Security Team!**

Akamai's Information Security team is responsible for safeguarding Akamai, its customers, and the Internet worldwide. You will have the opportunity to address global security challenges and make the Internet a safer place, powered by the scale of Akamai's platform and influence

**Shape Internet Security**

In this role, you will enhance the security of Akamai's security posture by identifying and helping remediate risks and vulnerabilities. You will have the opportunity to collaborate with industry-leading security experts on a global team.

As a Senior Architect, you will be:

Managing the methodological aspects of vulnerability scanning and exposing, including process and system design, integration, and collaboration

Defining and managing the threat landscape architecture and roadmap within the given operational and technical standards

Augmenting vulnerabilities' data from multiple scanning layers and feeds (infrastructure, OS level, application, etc.)

Sanitizing data for accuracy and lead measuring abilities for data reliability

Determining the attack surface procedures and outcomes and integrating data collected in a data-driven environment.

Identifying and collaborating exposures to system owners and interfaces.

Identifying and controlling inventory and assets intelligence to determine the most accurate potential extent of the impact.

### **Do what you love**

To be successful in this role you will:

Have 8+ years of experience leading and performing cyber security solutions, big data, and networks.

Have a wide experience in system and application development, operating systems, engineering, and cloud architecture.

Have cross-functional technologies knowledge (network security, detection, and response, threat management, vulnerability scanning and management, etc.).

Have excellent verbal and written communication skills, and be a collaborative team member.

Experience in leading complex data-driven projects and processes, including big data technologies and data lake strategies.

### **Work in a way that works for you**

FlexBase, Akamai's Global Flexible Working Program, is based on the principles that are helping us create the best workplace in the world. When our colleagues said that flexible working was important to them, we listened. We also know flexible working is important to many of the incredible people considering joining Akamai. FlexBase, gives 95% of employees the choice to work from their home, their office, or both (in the country advertised). This permanent workplace flexibility program is consistent and fair globally, to help us find incredible talent, virtually anywhere. We are happy to discuss working options for this role and encourage you to speak with your recruiter in more detail when you apply.

what makes Akamai a great place to work

Connect with us on social and see what life at Akamai is like!

**We power and protect life online, by solving the toughest challenges, together.**

At Akamai, we're curious, innovative, collaborative and tenacious. We celebrate diversity of thought and we hold an unwavering belief that we can make a meaningful difference.

Our teams use their global perspectives to put customers at the forefront of everything they do, so if you are people-centric, you'll thrive here.

### **Working for you**

At Akamai, we will provide you with opportunities to grow, flourish, and achieve great things. Our benefit options are designed to meet your individual needs for today and in the future. We provide benefits surrounding all aspects of your life:

Your health

Your finances

Your family

Your time at work

Your time pursuing other endeavors

Our benefit plan options are designed to meet your individual needs and budget, both today and in the future.
