Company: Jobinfo

Location: Israel

Category: other-general

### Job Description:

Our dynamic and innovative IoT development team is at the forefront of creating cutting-edge solutions that leverage the latest technologies. Comprising skilled professionals from diverse backgrounds, our team collaborates seamlessly to design, develop, and deliver state-of-the-art IoT devices. From hardware and embedded systems to software and data science, each team member plays a crucial role in ensuring the success of our projects. We thrive on the challenges of pushing the boundaries of technology to create intelligent, connected devices that make a meaningful impact on the world.

New Position Introduction: We are currently seeking a talented IoT SW Engineer to join our exceptional IoT development team. The ideal candidate will bring expertise in SW design and a passion for innovation to contribute to the creation of our next-generation IoT devices. As a key member of our team, you will collaborate with cross-functional experts to drive the success of our projects and be an integral part of shaping the future of IoT technology. If you are excited about working on cutting-edge projects and are eager to contribute your skills to a dynamic team, we welcome you to apply and be a part of our journey in revolutionizing the world of IoT.

### Additional Positions:

, ,
