

Software Architect

[Apply Now](#)

Company: CPS JOBS

Location: Israel

Category: other-general

תחום

A leading gaming company is looking for a Game level Architect

Essential Job Functions:

Work with engineering leads from multiple game development teams to help define gaps and areas for improvement in the existing code base.

Provide architectural insight and develop shared systems which can be utilized by all game development teams

Provide technical expertise, advice, and mentorship to engineers

Aid in the continuing development of coding standards and best practices

Deliver high quality, well-documented code that complies with technical design and product requirements

Stay apprised of innovations in the industry and make recommendations on their applicability

Help to drive the technology roadmap for mobile development

דרישות

Bachelor's degree in Computer Science or relevant area

10+ years of professional experience of software engineer, 2+ years of an architect

Strong fundamental programming skills, particularly in C#, PHP, C++, Python, and/or the Unity 3D game engine

Experience working in an Agile environment

Experience with continuous integration and automated deployment systems

Understanding of the game development pipeline

Understanding of RESTful APIs, and client/server interactions
