Company: Align Technology

Location: Caesarea

Category: other-general

About this opportunity

Do you want to join an international team within an innovative fast-paced medical device company? Grab the opportunity and make good use of your Mathematical and programming skills and affinity to medical device. In this role, you will... You will design and develop novel algorithms in 3D modeling, computational geometry, computer vision, machine learning and high-performance computing. You will research and analyze the underlying problems using real data. Design and test algorithms in C++ and Python. Implement algorithms in C++ and integrate them into desktop/cloud applications. Work closely with other members of the algorithms team and members of other groups such as physics and electronics. Participate in design reviews and code reviews of co-developers. In this role, you'll need ... At least M.Sc./BSc. in one of: Computer Science, Mathematics, Physics, Electrical engineering. 8+ years of experience in developing and debugging in C++ and Python. 6+ years of experience in one or more of the following fields: 3D, Computer Graphics, Computer Vision, Machine Learning, Image processing. High performance computing, GPU - advantage. Inquisitive fast self-learner. Good team player, open to new ideas.
